

Dr Calvin Kwan

General Manager – Sustainability

Link Asset Management Limited

Dr. Kwan is currently the General Manager – Sustainability at Link Asset Management Limited. In this capacity, he spearheads and coordinates the integration of all initiatives, both internally and externally, related to Link's corporate sustainability. This responsibility includes corporate reporting, supply chain management, business operations and advocating corporate sustainability.

He has over 10 years of experience in emerging environmental risk management, energy efficiency, sustainability reporting, and developing sustainability culture and awareness through stakeholder engagement. Before coming to Hong Kong, he worked on business energy and environmental risk management at several major companies including Toyota Motors Engineering and Manufacturing, North America and Shell Oil Products, U.S..
